Are your print heads clogging up?

Are you spending money
on expensive
printer technician repairs?

Are you losing money
with your printer
being out of service
waiting for a technician?

do you have bad
print quality?

are you throwing
your print heads away
and losing thousands
of dollars?

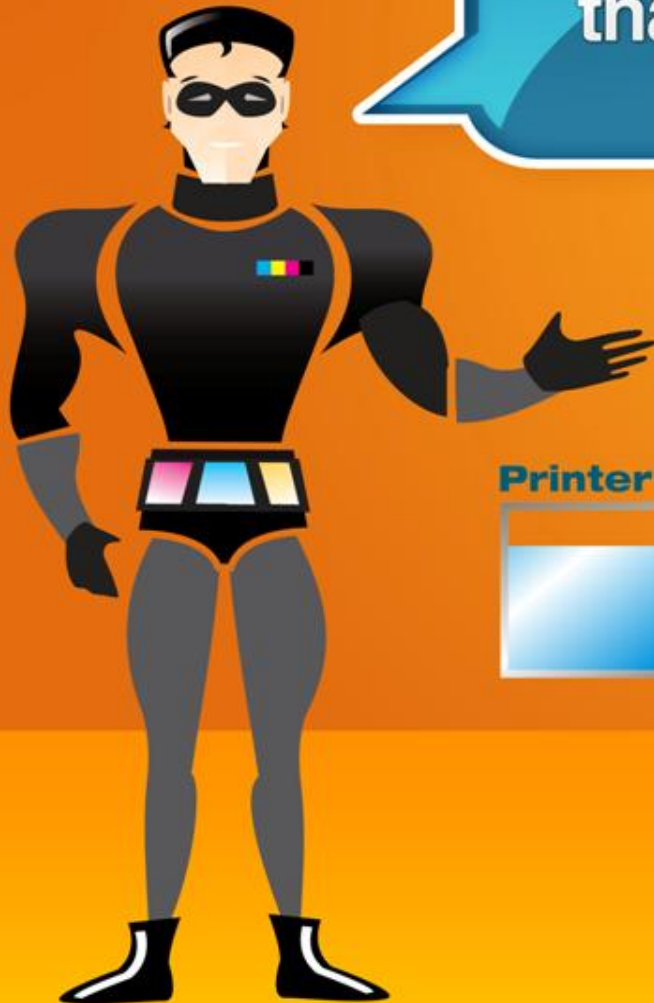

Now there is a new revolutionary product that allows you to change all that!

Inkjetclean will unclog
your printheads

it's a printable cleaner
that works like ink.

Printer Ink

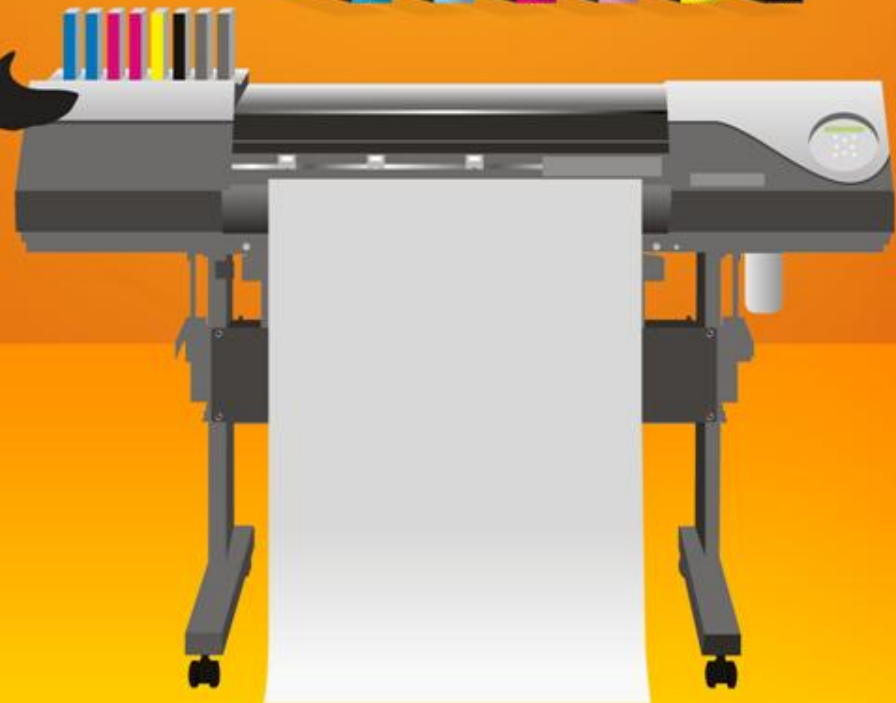

InkJetClean

Now you can unclog your
print heads using your printer
and inkJetClean without
an expensive technician.

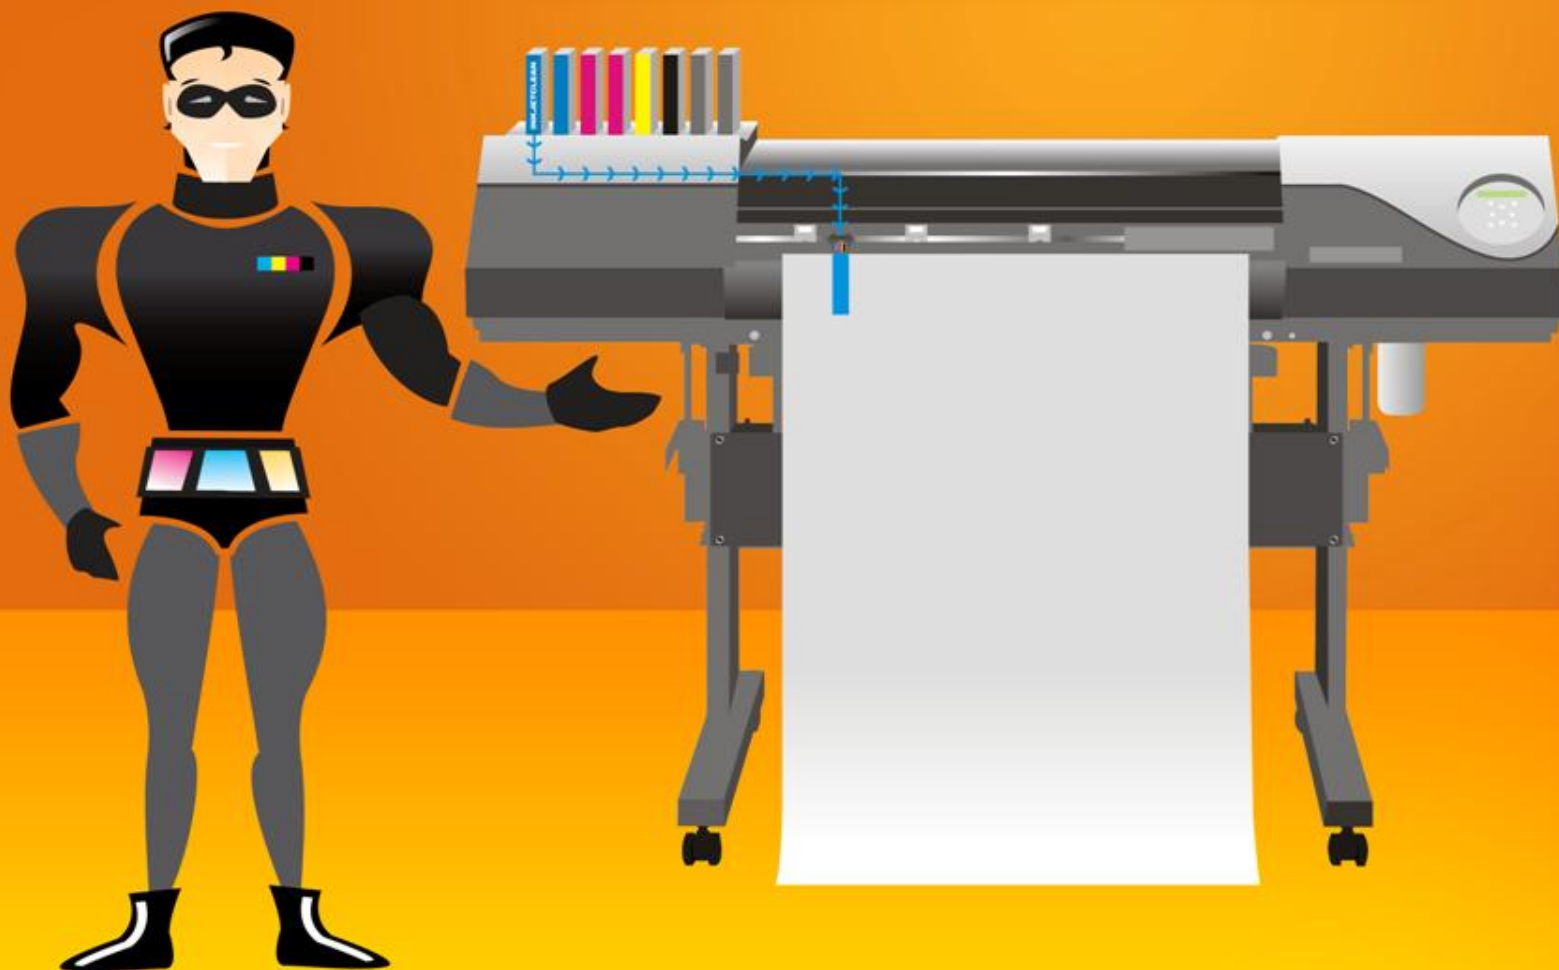

here's how it works

remove your ink
from the printer and
replace it with inkJetClean

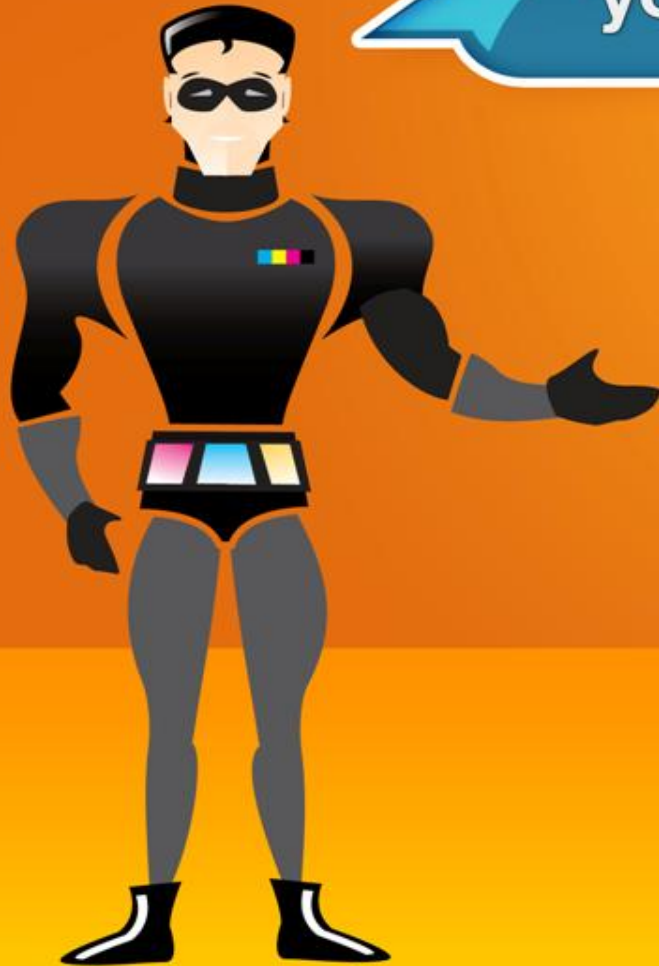

do some ink fills until
inkJetClean reaches
the printheads

print a large square
in the color
you want to unclog.

inkJetClean goes to work to unclog your printhead.

Without Inkjetclean

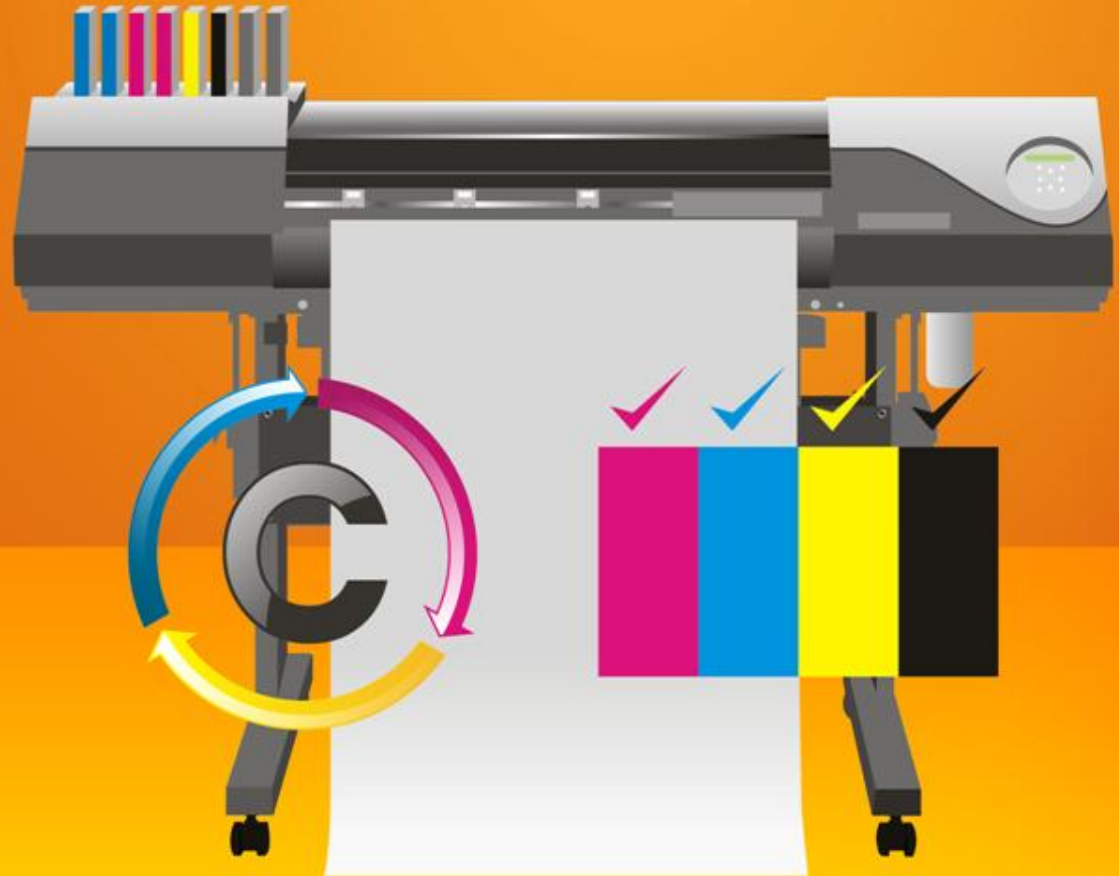

CLOG

With Inkjetclean

CLOG

do a cleaning cycle
and a nozzle test
to see the results.

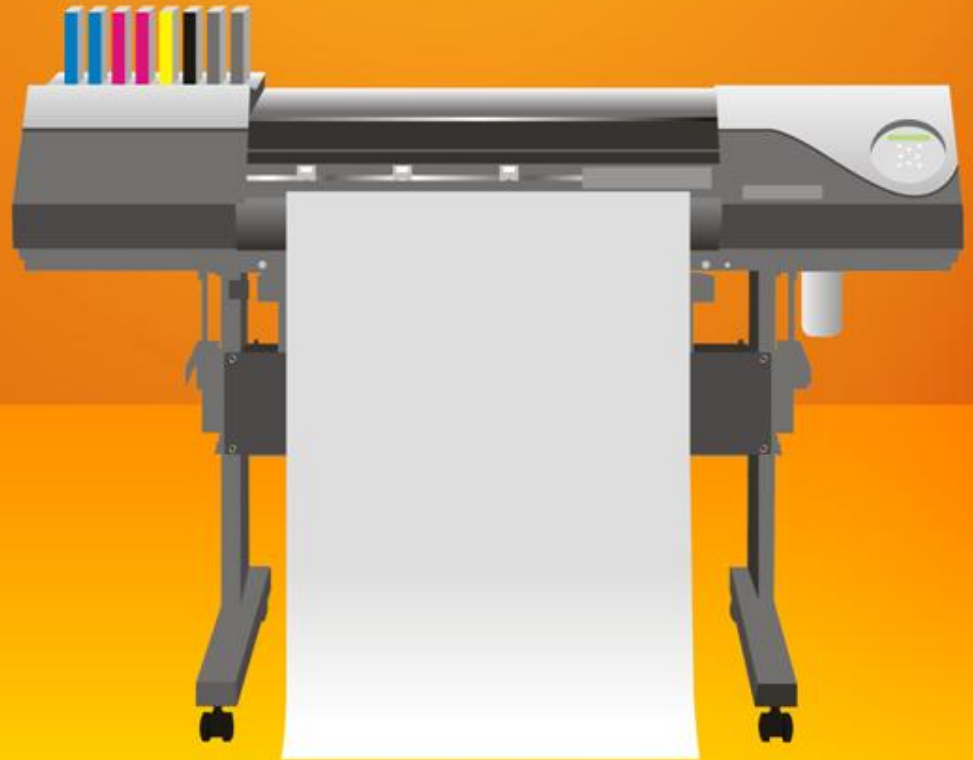

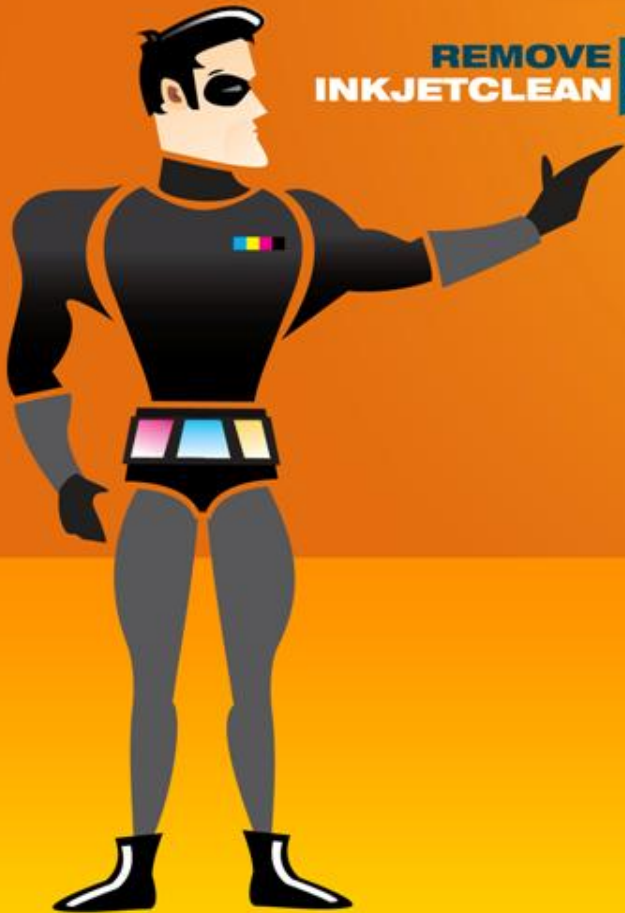

once the printhead is unclogged
replace the cartridge with
your regular ink and
do some ink fills.

**REMOVE
INKJETCLEAN**

1

2

**REPLACE
WITH INK**

Now your printer is good as new.

Use inkJetClean to unclog your printheads and as a regular maintenance tool to keep your printheads clean.

As an added bonus, inkJetClean not only cleans your printheads, but it also cleans your hoses and dampers, keeping your printer in excellent condition.
